Architecture offering

Our company principle Sajjaad Soeker brings with him valuable experience in design and construction detailing having worked at some of SA's leading architectural firms in his former years. Yakha Groups multi-disciplinary approach enables us to create solutions that seamlessly blend art, philosophy, science and construction. The unique combination of designers and artisans around one drawing table allows the firm to produce innovative design, architecture, spatial planning and engineering. Our portfolio covers a range of projects, ranging from high luxury residential, industrial warehousing, small scale commercial and mixed use developments.
